10 reasons why Hill's Science Plan is better

RECOMMENDED
BY VETERINARIANS
WORLDWIDE

Read more on why Hill's
Science Plan is a better
choice for your pet.

1. Precise nutrient balance

Many foods are labelled 'complete' but do not contain the same nutritional balance as Hill's. More than 150 veterinarians, Ph.D nutritionists and food scientists are employed by Hill's worldwide to ensure our food is precisely balanced, because too much of a specific nutrient can often be as harmful as too little. Long-term feeding of a poor quality, unbalanced diet can lead to problems such as a dull coat, poor digestion, urinary conditions, skeletal problems, constipation, diarrhoea, weight loss or obesity and other health problems. Food that contains too few or too many nutrients may affect a pet's functions and performance.

2. High quality raw ingredients

Hill's uses only high quality ingredients and our products are formulated to contain:

- no artificial flavourings, colours or preservatives
- animal products derived from animals that are fit for human consumption
- non GMO ingredients

3. Superb digestibility

Each portion of Hill's food is highly digestible and packed with energy, so that the recommended portion size is smaller than that of supermarket food.

4. Safe sourcing

Raw materials are exclusively sourced from countries with high quality standards such as Europe, USA and New Zealand. All suppliers are audited regularly for ingredient quality.

5. Excellent production standards

Hill's quality assurance standards are comparable to those used in the human food manufacturing industry, and are consistently rated "excellent" by the American Institute of Baking. More than 30 quality tests are performed on every batch of Hill's products.

6. Fixed & proven formulas

Because our products are scientifically proven, we don't simply substitute ingredients and vary formulas to allow for the use of cheaper materials as some companies do. This way, you're assured that our products are always effective and of the highest quality.

7. 100% money back guarantee

We're so sure that you will be happy with Hill's, that if you are not fully satisfied, we offer a full money-back guarantee.

8. On the frontier of technology and innovation

All our products are well-researched and supported by credible clinical evidence to ensure efficacy. Since 1946, we have made spectacular breakthroughs in many pet conditions. Veterinarians around the world are using Hill's Prescription Diets to treat conditions such as obesity, skin conditions, urinary tract disease, diabetes and arthritis. Our commitment to the development of therapeutic nutrition is unmatched.

9. Recommended by veterinarians worldwide

Veterinarians around the world trust Hill's and recommend feeding Hill's pet food and that's because it is the very best you can do for your pet.

10. Dedicated to the loving care of pets

Hill's embodies a tradition of caring that started nearly 70 years ago with one remarkable veterinarian. Dr Mark Morris believed that we should take pet healthcare as seriously as we do our own. This philosophy is just as strong today. Our unrivalled devotion to healthy, happy pets drives everything we do. We support programmes that transform the lives of pets, saving nearly 1 million cats and dogs worldwide every year.
